

TRIP PREPAREDNESS

The summer months in Boise can be quite warm, but being in the high desert, we can see thunderstorms and inclement weather year-round. The fall, winter, and spring can be cold and unpredictable, so appropriate clothing for layering is even more important during this time of year. In order to assist you with being more prepared for your day of fishing, here is a list of things you should consider having with you:

- ✓ Hat
- ✓ Polarized sunglasses
- ✓ Sunscreen
- ✓ Insect repellent
- ✓ Rain gear
- ✓ Good socks (wool or Capilene, etc.)
- ✓ Warm clothing for layering and wearing under waders (i.e. long johns, fleece pants, etc.) ***Jeans are usually not very comfortable under waders, nor do they wick moisture well.
- ✓ Extra clothes (in case the weather changes or the need arises)
